Executive Director

Oak Creek Charter School of Bonita Springs

Oak Creek Charter School (OCCS) aims to prepare students in Lee County, ranging from grades K-8, for success not only in their current academic endeavors but also in their future high school education and beyond.

The school places a strong emphasis on providing students with a rigorous curriculum. We want to challenge our students academically and ensure they receive a high-quality education that meets or exceeds state and national standards.

OCCS recognizes the importance of continuous assessment and monitoring of students' progress. Regular assessments can help identify areas where students may need additional support and allow the school to adjust its teaching methods accordingly.

In addition to academics, the school also prioritizes the physical well-being of students by providing daily instruction in fitness and health.

Finally, Oak Creek Charter School aims to instill positive character traits and values in students. An integrated character education program can help students develop qualities like responsibility, respect, and empathy, which are essential for success in both academics and life.
